The screenshot shows the Contrib'City user dashboard. At the top, there's a header with the site name "Contrib'City" and a "Share about your Homeplace" button. Below the header is a large image of a snow-covered mountain range. The main content area has a "Dashboard" title and a message "Welcome! You are now on your bdefoucauld@funkcosy.com account". To the left is a sidebar with a "Rubric" section and a list of categories: Event, Culture, Sport, Shows/Sound & Light, Night Life, Dating, Community Life, Congresses, Environment, Jobs / Competences, Cab Sharing, Real Estate, and Yard Sales. The main body contains a rich text editor with a toolbar, a location search bar with a "Get Location" button, and a Google map of France and Switzerland. At the bottom, there's a taskbar with various icons and system status information.

Yep, it is working fine for panoramic photo. If, later, you can make possible to have a vertical photo appearing in full (but in a smaller frame), that would please CC writers.

Rocher de Bellevarde. The Spatule itinerary

track and field:
Homeplace Attractions

Another way to discover the Bellevarde Rock, on the Val d'Isère ski resort.

This itinerary gives a feeling of wildness and skiing on its slopes gives good sensations.

As always, when off piste, use the usual security items and read the weather forecast before. Off piste is under the skier(s) own responsibility. It is better to go with a guide.

I have been going to this magic place for more than 40 years, and as always, the site majesty and beauty have attracted me in an irresistible way.

Homeplace Attractions

In the Tarentaise High Valley, lives a vibrant ski resort: Tignes! There, above the lake (where are sleeping the former village and its soul) and the dam (built in 1953), the Grande Motte glacier (3656 m) and its sister (3852 m), with their little brother, the Pramecou Dome (3081 m) dominate the whole site and give endless possibilities to practice snow sports – including free-ride – including during summer time.

- In both cases, the post photo appears a bit out of focus. Why?
